## HOW TO CITE RULES AND RSMo

**RULES**—Cite material in the *Missouri Register* by volume and page number, for example, Vol. 26, *Missouri Register*, page 27. The approved short form of citation is 26 MoReg 27.

The rules are codified in the *Code of State Regulations* in this system—

Title	Code of State Regulations	Division	Chapter	Rule
1	CSR	10-	1.	010
Department		Agency, Division	General area regulated	Specific area regulated

They are properly cited by using the full citation , i.e., 1 CSR 10-1.010.

Each department of state government is assigned a title. Each agency or division in the department is assigned a division number. The agency then groups its rules into general subject matter areas called chapters and specific areas called rules. Within a rule, the first breakdown is called a section and is designated as (1). Subsection is (A) with further breakdown into paragraph 1., subparagraph A., part (I), subpart (a), item I. and subitem a.

**RSMo**—Cite material in the RSMo by date of legislative action. The note in parentheses gives the original and amended legislative history. The Office of the Revisor of Statutes recognizes that this practice gives users a concise legislative history.

### **We still need your help!!!**

We have received numerous volunteers (and we thank you!!) – but we still need your thoughts either in paper (our mailing address is Administrative Rules Division, Office of Secretary of State, 600 West Main Street, PO Box 1767, Jefferson City, MO 65102; *via* E-mail ([rulesa@sosmail.state.mo.us](mailto:rulesa@sosmail.state.mo.us)); fax (573-751-3032) or by telephone (573-751-4015) communication. Our preferred method is by volunteer participation in assisting us in the total rewrite of our rulemaking manual. If we do not receive sufficient volunteers, we will begin to recruit you to serve!

### **We also need your help with another matter!**

We also would appreciate any thoughts you may have as they relate to how we may better serve *you*, our customer. If you have suggestions for improvement in our printed product, either Code or Register; or if you have suggestions for improvement of our website we want to hear from you! We are in the midst of looking at our products and processes and would appreciate your point of view.

For instance, we are in the planning stages of developing a searchable index for Code and Register.

Thank you in advance for taking the time to communicate with us.

### **One other small procedural update --**

Did you know we will now accept your “sign off” on small typographical-type corrections *via* E-mail? You may E-mail us your confirmation and agreement of these small (non-substantive) type changes *via* our E-mail address. We hope this will assist you in accomplishing this task in a more time-efficient manner.

### **Option/guidelines for using numbers in the text of a rule.**

You may choose whether you spell out numbers in a rule or just use the numeral. Although, we do ask that you consistently use the same pattern throughout the rule.

- 1) When using a numerical amount in a rule you may spell out the number from one to ten without using the figures in parentheses.
- 2) For numbers over ten, just use the figure, there is no need to spell it out unless the number is the first word of a sentence.
- 3) There is no need to spell out a dollar amount or a fractional amount.

*Also, did you know?! . . .*

If it would be of any assistance to you, did you know we will E-mail you your specific rule for your case in preparing your proposed rule revisions? Just give us a call . . . .

**R**ules appearing under this heading are filed under the authority granted by section 536.025, RSMo 2000. An emergency rule may be adopted by an agency if the agency finds that an immediate danger to the public health, safety or welfare, or a compelling governmental interest requires emergency action; follows procedures best calculated to assure fairness to all interested persons and parties under the circumstances; follows procedures which comply with the protections extended by the *Missouri* and the *United States Constitutions*; limits the scope of such rule to the circumstances creating an emergency and requiring emergency procedure, and at the time of or prior to the adoption of such rule files with the secretary of state the text of the rule together with the specific facts, reasons and findings which support its conclusion that there is an immediate danger to the public health, safety or welfare which can be met only through the adoption of such rule and its reasons for concluding that the procedure employed is fair to all interested persons and parties under the circumstances.

**R**ules filed as emergency rules may be effective not less than ten days after filing or at such later date as may be specified in the rule and may be terminated at any time by the state agency by filing an order with the secretary of state fixing the date of such termination, which order shall be published by the secretary of state in the *Missouri Register* as soon as practicable.

**A**ll emergency rules must state the period during which they are in effect, and in no case can they be in effect more than 180 calendar days or 30 legislative days, whichever period is longer. Emergency rules are not renewable, although an agency may at any time adopt an identical rule under the normal rulemaking procedures.

## Title 11—DEPARTMENT OF PUBLIC SAFETY Division 40—Division of Fire Safety Chapter 6—Amusement Rides

### EMERGENCY AMENDMENT

**11 CSR 40-6.060 Director; Qualified Inspectors.** The director is adding sections (3) and (4).

**PURPOSE:** *The purpose of this amendment is to ensure that all amusement rides in Missouri obtain safety inspections this year.*

**EMERGENCY STATEMENT:** *The Division of Fire Safety finds that an immediate danger to the public health, safety and welfare exists. The legislature has found that amusement rides should be inspected annually to prevent the operation of unsafe rides and has mandated the annual safety inspection of all amusement rides in Missouri beginning January 1, 2001. Due to a shortage of certified amusement ride inspectors these safety inspections—which are necessary to protect the public from the risk of injury and death posed by unsafe amusement rides—cannot be performed on all amusement rides in Missouri this year. This emergency amendment will remedy this situation by temporarily expanding the pool of persons authorized to conduct amusement ride safety inspections, thereby providing for the necessary safety inspections to occur and the public to be protected from unsafe amusement rides. The scope of this amendment is limited to the circumstances creating the*

*emergency and complies with the protections extended by the Missouri and United States Constitutions. Emergency amendment filed March 16, 2001, effective March 26, 2001, expires June 26, 2001.*

(3) Whenever an owner is required by law to have an amusement ride inspected by a qualified inspector, the inspection shall be performed by an inspector certified by the director pursuant to this rule, except as provided by subsection (4) of this rule.

(4) When an owner cannot engage a certified inspector to perform an inspection required by section 316.210, RSMo, within thirty days at a cost of less than \$125.00 per hour plus actual expenses, upon certification of this fact by the owner, the department may accept an inspection performed by:

(A) Any professional engineer licensed pursuant to section 327.381, RSMo, provided that the engineer has affixed his or her personal seal to the inspection; or

(B) The owner as a self-inspector, in which case the owner shall cause the amusement ride to be re-inspected by a certified inspector within sixty days after receiving notice from the department that a certified inspector is available to perform a re-inspection within thirty days at a cost of less than \$125.00 per hour plus actual expenses.

**AUTHORITY:** *section 316.206, RSMo [Supp. 1998] 2000. Original rule filed March 1, 1999, effective Sept. 30, 1999. Emergency amendment filed March 16, 2001, effective March 26, 2001, expires June 26, 2001.*

## Title 19—DEPARTMENT OF HEALTH Division 10—Office of the Director Chapter 4—Coordinated Health Care Services

### EMERGENCY RULE

#### 19 CSR 10-4.030 National Interest Waiver Program

**PURPOSE:** *This rule establishes the procedure for requesting an attestation from the Department of Health that an alien physician's work in an area or areas of the United States that have been designated as having a shortage of health care providers by the Secretary of Health and Human Services is in the public interest for the purpose of applying for a National Interest Waiver from the Immigration and Naturalization Service.*

**EMERGENCY STATEMENT:** *This emergency rule establishes the procedure for requesting an attestation from the Department of Health that an alien physician's work in an area or areas of the United States that have been designated as having a shortage of health care providers by the Secretary of Health and Human Services is in the public interest for the purpose of applying for a National Interest Waiver from the Immigration and Naturalization Service. The National Interest Waiver waives certain requirements of the Immigration and Nationality Act for physicians serving in Health Professional Shortage Areas or in a facility operated by the Department of Veteran Affairs and allows them to apply for permanent resident status. Absent this rule, the Department will be precluded from attesting that the work of any physician is in the public interest, thereby compromising the ability of the physician to continue to practice in the underserved area. As a result, the Department finds an immediate danger to the public health and welfare and a compelling government interest, which require emergency action. The scope of this rule is limited to the circumstances*

*creating the emergency and complies with the protections extended in the Missouri and United States Constitutions. The Department believes this emergency amendment is fair to all interested persons and parties under the circumstances. The emergency rule was filed on March 26, 2001, effective April 9, 2001, and expires January 17, 2002.*

*AUTHORITY: section 191.411, RSMo 2000. Emergency rule filed March 27, 2001, effective April 9, 2001, expires Jan. 17, 2002. A proposed rule covering this same material is published in this issue of the Missouri Register.*

**U**nder this heading will appear the text of proposed rules and changes. The notice of proposed rulemaking is required to contain an explanation of any new rule or any change in an existing rule and the reasons therefor. This is set out in the Purpose section with each rule. Also required is a citation to the legal authority to make rules. This appears following the text of the rule, after the word "Authority."

**E**ntirely new rules are printed without any special symbolology under the heading of the proposed rule. If an existing rule is to be amended or rescinded, it will have a heading of proposed amendment or proposed rescission. Rules which are proposed to be amended will have new matter printed in boldface type and matter to be deleted placed in brackets.

**A**n important function of the *Missouri Register* is to solicit and encourage public participation in the rule-making process. The law provides that for every proposed rule, amendment or rescission there must be a notice that anyone may comment on the proposed action. This comment may take different forms.

**I**f an agency is required by statute to hold a public hearing before making any new rules, then a Notice of Public Hearing will appear following the text of the rule. Hearing dates must be at least 30 days after publication of the notice in the *Missouri Register*. If no hearing is planned or required, the agency must give a Notice to Submit Comments. This allows anyone to file statements in support of or in opposition to the proposed action with the agency within a specified time, no less than 30 days after publication of the notice in the *Missouri Register*.

COMMENT: The Ozark Chapter of the Missouri Society of Professional Engineers opposed the fee increase citing concerns relating to the lack of benefit that professional engineers will receive related to these expenses (i.e., a periodic newsletter and continued use of testing locations that are well distributed around the state along with enhanced security for the testing).

RESPONSE: Although the board understands the concerns voiced, the fee increase is necessary because the board's fund balance and projected revenue for FY2001 will not support the expenditures necessary to enforce and administer the provisions of Chapter 327, RSMo, thereby endangering the life, health, peace and safety of the public. Therefore, the board has decided not to change the text of the amendment.

**ORDER OF RULEMAKING**

By the authority vested in the Missouri Air Conservation Commission under section 643.050, RSMo 2000, the commission adopts a rule as follows:

10 CSR 10-2.215 is adopted.

A notice of proposed rulemaking containing the text of the proposed rule was published in the *Missouri Register* on October 2, 2000 (25 MoReg 2408–2410). Those sections with changes are reprinted here. This proposed rule becomes effective thirty days after publication in the *Code of State Regulations*.

SUMMARY OF COMMENTS: The Air Pollution Control Program (APCP) received comments from the U.S. Environmental Protection Agency (EPA), Ford Motor Company, the Printing Industry Association of the Heartland (PIAH), Mid-America Regional Council (MARC) and Regulatory Environmental Group for Missouri (REGFORM). The comments focused on rule support, clarity and fiscal note corrections.

COMMENT: The EPA commented that in subsection (1)(B) the exemption for this rule is based on actual emissions but should be based on potential emissions. They asked for modification of the rule language in this exemption to refer potential emissions or clarify that if a source ever exceeds the actual emission limit the source will always be subject to the rule.

RESPONSE AND EXPLANATION OF CHANGE: The APCP agrees and language has been incorporated into the rule stating that if a source ever exceeds the actual emission limit the source will always be subject to the rule.

COMMENT: The EPA commented that in subsection (2)(B) the department should add—for the purposes of this rule—after (SMBE) in the definition for simple mass balance equation.

**RESPONSE AND EXPLANATION OF CHANGE:** The APCP agrees and has added the recommended language.

**COMMENT:** The EPA commented that in paragraph (3)(B)1. the department should base the 30 percent solvent emissions reductions on one base year. Basing the reductions on 1997 and 1998 is confusing, and would seem to make sense only if the baseline is the annual average for those two years. The EPA also recommended deleting the statement—or shall be based on total VOC plant wide emissions divided by units produced in 1997 and 1998. This statement is confusing because units are not being produced, and because the plant wide emissions divided by the units produced do not relate to the total emissions on which reductions should be based.

**RESPONSE AND EXPLANATION OF CHANGE:** The APCP disagrees with using one year as a baseline due to year to year variability in solvent emissions. The APCP also disagrees with deleting—or shall be based on total VOC plant wide emissions divided by units produced in 1997 and 1998—because there is a direct correlation between units being produced and the solvent emissions created as a result of their production. The per unit method of compliance also results in reduced solvent emissions regardless if one unit is produced or one thousand units are produced. As a result of this comment the language of this paragraph was rewritten to clarify and remove any perceived ambiguity.

**COMMENT:** Ford Motor Company commented that they were in agreement with the inclusion of language in the rule that allows reductions in emissions to be calculated on a per unit production basis. The per unit method of compliance avoids conflicts that arise from changes in production since a baseline established in 1997 or 1998 in tons per year may no longer be relevant in other years.

**RESPONSE:** The APCP agrees and no changes were made as a result of this comment.

**COMMENT:** Ford Motor Company and REGFORM commented that the private entity fiscal note amount as shown in the rule is possibly low by an order of magnitude. Ford said that personnel training, work practice standards, and screening tests and trial evaluations costs are but three portions of the costs. Substitution of material(s), additional control(s), additional capital expenditures, quality assurance and control changes relating to ISO 14000, along with the first three costs all affect the magnitude of the private entity fiscal note.

**RESPONSE AND EXPLANATION OF CHANGE:** The APCP agrees with this comment and has recalculated the private entity fiscal note costs. The APCP estimates the private entity cost to be approximately \$88,000.

**COMMENT:** PIAH and MARC expressed their support for regulations relating to the Kansas City Ozone Maintenance Plan.

**RESPONSE:** The APCP appreciates the support of the PIAH and MARC. This rule is one important component of the overall air quality plan for the Kansas City ozone maintenance area. No changes were made as a result of this comment.

**COMMENT:** REGFORM expressed their support of inclusion of the per unit clause in the language of the rule.

**RESPONSE:** The APCP appreciates the support of REGFORM. The per unit clause allows sources some flexibility to comply with the rule.

## 10 CSR 10-2.215 Control of Emissions from Solvent Cleanup Operations

### (1) Applicability.

(B) This rule shall apply to any person who performs or allows the performance of any cleaning operation involving the use of a VOC solvent or solvent solution. The provisions of this rule shall

not apply to any stationary source at which cleaning solvent VOCs are emitted at less than five hundred (500) pounds per day. Once a source is determined to exceed the applicability level of this rule, it shall remain subject to this rule even if its actual emissions drop below the applicability level.

### (2) Definitions.

(B) Simple mass balance equation (SMBE) for the purposes of this rule is a summation of the vapor amounts that equal the total weight of liquid solvent in the system minus the weight of liquid solvent in the used category.

$$V_e = S_i - S_o(1 - X_{ci})(1 - C_{ei})$$

Where

$V_e$  = Total weight of the evaporative loss of the VOC. (from container, the cleaning operation, the surface being cleaned, and the discard wipes and residue)

$S_i$  = Liquid VOC input weight

$S_o$  = Total liquid VOC output weight (from the cleaning operation, the surface being cleaned and the discard wipes and residue)

$X_{ci}$  = Total weight fraction of the contaminants (in the wipes and liquid residue)

$C_{ei}$  = Total weight fraction due to control of VOCs attributed to add on emission control device(s). Note  $C_{ei}$  will be zero (0) if not applicable.

### (3) General Provisions.

(B) Solvent Emission Reduction. The following provisions shall apply to any stationary source subject to subsection (3)(A) of this rule:

1. A thirty percent (30%) emission reduction shall be based on the average of the summation of the emissions in 1997 and 1998 or shall be based on total VOC emissions from plant-wide solvent cleanup operations divided by units produced in 1997 and 1998. If the owner/operator demonstrates that 1997 and 1998 are not representative production years, then a demonstration shall be made to the agency that other years are more representative for purposes of comparison or for prorating cleaning solvent usage. The following applicable documentation of actions and associated emission reductions shall be sent to the department for approval by December 1, 2002:

A. Changes in cleaning solvents used;

B. Changes in work practices; and

C. Changes in equipment or processes; and

2. The changes described in paragraph (3)(B)1. of this rule shall remain in effect until other changes resulting in greater, or equal, VOC emission reductions from the cleaning operations are implemented.

*REVISED PRIVATE COST: This proposed rule will cost \$88,000 in FY 2003. Savings resulting from reduced solvent use should offset additional costs associated with this rule. As a result, no additional cost is listed for years 2004 and beyond. Total aggregate cost is \$88,000.*

7. This cost estimate is based on \$40,000 additional cost required for the physical substitution of materials to meet the new standards.
8. Savings resulting from reduced solvent use should offset costs associated with this rule. As a result, no additional cost will be incurred for years 2004 and beyond.
9. All costs are based on and presented in year 2000 dollars.

**ORDER OF RULEMAKING**

By the authority vested in the Missouri Air Conservation Commission under section 643.050, RSMo 2000, the commission amends a rule as follows:

**10 CSR 10-2.330 Control of Gasoline Reid Vapor Pressure is amended.**

A notice of proposed rulemaking containing the text of the proposed amendment was published in the *Missouri Register* on November 1, 2000, (25 MoReg 2640-2644). No changes have been made in the text of the proposed amendment, so it is not reprinted here. This proposed amendment becomes effective thirty days after publication in the *Code of State Regulations*.

**SUMMARY OF COMMENTS:** Two sets of oral comments (from Williams Energy Services and the Missouri Oil Council) and one written comment (from the Mid-America Regional Council) were received during the public comment period. All comments were supportive of the proposed amendment.

**COMMENT:** Williams Energy Services commented the Williams Company owns and operates refined-products pipelines and two gasoline terminals that supply the Kansas City metropolitan area. Williams Energy Services also provided handout materials that included listings of the petroleum products available at the Kansas City and Olathe, Kansas terminals and additional information regarding the movement of products through the Williams petroleum distribution system. Williams commented they do not anticipate any substantive changes in the distribution infrastructure or in terminal throughput volume as a result of the proposed amendment. As a result, no costs should be incurred from a terminal standpoint.

Williams commented they operate a world scale petroleum laboratory in Kansas City that will be used to test fuels arriving at their terminals for compliance with the proposed vapor pressure requirements. Williams also commented they are the nation's second largest producer of ethanol and they have the availability to load ethanol at their Kansas City terminal. Williams commented ethanol offers air quality and supply benefits and mentioned the two new ethanol plants located in Missouri.

Williams commented they continue to work with Missouri and Kansas to ensure the gasoline regulations adopted by both states are the same for the entire Kansas City metropolitan area.

**RESPONSE:** The Air Pollution Control Program (APCP) agrees with these comments. In particular, we agree the states of Missouri and Kansas should continue to strive to maintain identical gasoline requirements for the entire Kansas City ozone maintenance area. The APCP appreciates the cooperation we continue to receive from Williams Energy Services regarding fuel issues. The rule text is not being changed as a result of this comment.

**COMMENT:** The Missouri Oil Council commented its members and the petroleum industry are committed to meeting the requirements of the proposed amendment and that the Missouri Oil Council is pleased that this proposed amendment has been published.

**RESPONSE:** The APCP appreciates the Missouri Oil Council's support and commitment to comply with the requirements of the proposed amendment. The rule text is not being changed as a result of this comment.

**COMMENT:** The Mid-America Regional Council (MARC) commented it supports the proposed amendment to 10 CSR 10-2.330 as it is one of several regulations which will address the requirement that the Kansas City region achieve additional emission reductions to respond to violations of the one-hour ozone standard in 1995 and 1997. MARC supports this amendment as part of a regional strategy for meeting the State Implementation Plan requirements and achieving actual emission reductions without further delay.

**RESPONSE:** The APCP agrees with this comment. The rule text is not being changed as a result of this comment.
